

# SAFETY DATA SHEET

Revision Date 04-Oct-2019

Version 1

## 1. IDENTIFICATION

### Product identifier

**Product Name** ISOLATE- 99% CBD

### Other means of identification

**Product Code** ISOLATE- 99 PERCENT CBD

### Recommended use of the chemical and restrictions on use

**Recommended Use** Consumer Use

**Uses advised against** No information available

### Details of the supplier of the safety data sheet

**Manufacturer Address**

**May Also Be Distributed by:**

### 24-hour emergency phone number

No information available

**E-mail address:** Not available.

## 2. HAZARDS IDENTIFICATION

### Classification

#### **OSHA Regulatory Status**

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

|                                     |            |
|-------------------------------------|------------|
| Acute toxicity - Oral               | Category 4 |
| Acute toxicity - Inhalation (Gases) | Category 4 |
| Reproductive toxicity               | Category 2 |

### Label elements

#### **Emergency Overview**

#### **Signal word**

**Warning**

Harmful if swallowed or if inhaled

Suspected of damaging fertility or the unborn child

**Appearance** White

**Physical state** Fine powder

**Odor** Odorless to terpene smell

**Precautionary Statements - Prevention**

Obtain special instructions before use  
Do not handle until all safety precautions have been read and understood  
Use personal protective equipment as required  
Wash face, hands and any exposed skin thoroughly after handling  
Do not eat, drink or smoke when using this product  
Avoid breathing dust/fume/gas/mist/vapors/spray  
Use only outdoors or in a well-ventilated area

**Precautionary Statements - Response**

IF exposed or concerned: Get medical advice/attention

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing

IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell

Rinse mouth

**Precautionary Statements - Storage**

Store locked up

**Precautionary Statements - Disposal**

Dispose of contents/container to an approved waste disposal plant

**Hazards not otherwise classified (HNOC)**

Not applicable

**Other Information**

May cause long lasting harmful effects to aquatic life.

**3. COMPOSITION/INFORMATION ON INGREDIENTS**

| Chemical Name                                 | CAS No     | Weight-% |
|-----------------------------------------------|------------|----------|
| Cannabidiol, Crystalline Cannabidiol, Isolate | 13956-29-1 | 60 - 100 |

**4. FIRST AID MEASURES****Description of first aid measures**

|                                           |                                                                                                                                                                                            |
|-------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>General advice</b>                     | Get medical advice/attention if you feel unwell.                                                                                                                                           |
| <b>Eye contact</b>                        | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. |
| <b>Skin contact</b>                       | IF ON SKIN: Wash skin with soap and water. If skin irritation persists, call a physician. Take off contaminated clothing and wash before reuse.                                            |
| <b>Inhalation</b>                         | IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If symptoms persist, call a physician.                                                    |
| <b>Ingestion</b>                          | IF SWALLOWED: Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Call a physician.                                                                             |
| <b>Self-protection of the first aider</b> | Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.                                                                            |

**Most important symptoms and effects, both acute and delayed**

**Symptoms** See section 2 for more information.

**Indication of any immediate medical attention and special treatment needed**

**Note to physicians** Treat symptomatically.

**5. FIRE-FIGHTING MEASURES****Suitable extinguishing media**

Carbon dioxide (CO<sub>2</sub>), Dry chemical, Foam

**Unsuitable extinguishing media**

None

**Specific hazards arising from the chemical**

None in particular.

**Explosion data**

**Sensitivity to Mechanical Impact** None.

**Sensitivity to Static Discharge** None.

**Protective equipment and precautions for firefighters**

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

**6. ACCIDENTAL RELEASE MEASURES****Personal precautions, protective equipment and emergency procedures**

**Personal precautions** Ensure adequate ventilation, especially in confined areas. Avoid contact with eyes and skin. Use personal protective equipment as required.

**Environmental precautions**

**Environmental precautions** See section 12 for additional ecological information.

**Methods and material for containment and cleaning up**

**Methods for containment** Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up** Use personal protective equipment as required. Dam up. Cover liquid spill with sand, earth or other non-combustible absorbent material. Take up mechanically, placing in appropriate containers for disposal. Clean contaminated surface thoroughly.

**Prevention of secondary hazards** Clean contaminated objects and areas thoroughly observing environmental regulations.

**7. HANDLING AND STORAGE****Precautions for safe handling**

**Advice on safe handling** Handle in accordance with good industrial hygiene and safety practice. Avoid breathing vapors or mists. Avoid contact with skin, eyes or clothing. Wash thoroughly after handling. Wash contaminated clothing before reuse. Use personal protective equipment as required.

**Conditions for safe storage, including any incompatibilities**

**Storage Conditions** Keep containers tightly closed in a cool, well-ventilated place. Keep out of the reach of children.

**Incompatible materials** Strong oxidizing agents, Strong bases, Strong acids

**8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

Control parametersAppropriate engineering controls

|                      |                                                    |
|----------------------|----------------------------------------------------|
| Engineering Controls | Showers<br>Eyewash stations<br>Ventilation systems |
|----------------------|----------------------------------------------------|

Individual protection measures, such as personal protective equipment

|                                |                                                                                                                                              |
|--------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| Eye/face protection            | Wear safety glasses with side shields (or goggles).                                                                                          |
| Skin and body protection       | Wear protective natural rubber, nitrile rubber, Neoprene™ or PVC gloves.                                                                     |
| Respiratory protection         | Use NIOSH-approved air-purifying respirator with organic vapor cartridge or canister, as appropriate.                                        |
| General Hygiene Considerations | Handle in accordance with good industrial hygiene and safety practice. Regular cleaning of equipment, work area and clothing is recommended. |

## 9. PHYSICAL AND CHEMICAL PROPERTIES

9.1. Information on basic physical and chemical properties

|                |                           |
|----------------|---------------------------|
| Physical state | Fine powder               |
| Appearance     | White                     |
| Odor           | Odorless to terpene smell |
| Color          | White to pale yellow      |
| Odor threshold | No information available  |

| <u>Property</u>                | <u>Values</u>            | <u>Remarks • Method</u> |
|--------------------------------|--------------------------|-------------------------|
| pH                             | No information available |                         |
| Melting point / freezing point | 62 °C                    |                         |
| Boiling point / boiling range  | 187 °C / 369 °F          |                         |
| Flash point                    | 206 °C / 403 °F          |                         |
| Evaporation rate               | No information available |                         |
| Flammability (solid, gas)      | No information available |                         |
| Flammability Limit in Air      |                          |                         |
| Upper flammability limit:      | No information available |                         |
| Lower flammability limit:      | No information available |                         |
| Vapor pressure                 | 3.14E-09 mmHg at 25°C    |                         |
| Vapor density                  | No information available |                         |
| Relative density               | No information available |                         |
| Water solubility               | No information available |                         |
| Solubility(ies)                | Insoluble                |                         |
| Partition coefficient          | No information available |                         |
| Autoignition temperature       | No information available |                         |
| Decomposition temperature      | No information available |                         |
| Kinematic viscosity            | No information available |                         |
| Dynamic viscosity              | No information available |                         |
| Explosive properties           | No information available |                         |
| Oxidizing properties           | No information available |                         |

Other Information

|                                                    |                          |
|----------------------------------------------------|--------------------------|
| Softening point                                    | No information available |
| Molecular weight                                   | No information available |
| VOC Content (%)                                    | No information available |
| Density                                            | 1.025 g/cm3              |
| Bulk density                                       | No information available |
| SADT (self-accelerating decomposition temperature) | No information available |

## 10. STABILITY AND REACTIVITY

**Reactivity**

Stable under normal conditions

**Chemical stability**

Stable under normal conditions

**Possibility of Hazardous Reactions**

None under normal processing.

**Hazardous polymerization**

Hazardous polymerization does not occur.

**Conditions to avoid**

Extremes of temperature and direct sunlight.

**Incompatible materials**

Strong oxidizing agents, Strong bases, Strong acids

**Hazardous Decomposition Products**Carbon dioxide (CO<sub>2</sub>)

Carbon monoxide

|                                      |
|--------------------------------------|
| <b>11. TOXICOLOGICAL INFORMATION</b> |
|--------------------------------------|

**Information on likely routes of exposure**

|                     |                                                                                    |
|---------------------|------------------------------------------------------------------------------------|
| <b>Inhalation</b>   | May cause irritation of respiratory tract.                                         |
| <b>Eye contact</b>  | Contact with eyes may cause irritation. May cause redness and tearing of the eyes. |
| <b>Skin contact</b> | May cause skin irritation and/or dermatitis.                                       |
| <b>Ingestion</b>    | Ingestion may cause irritation to mucous membranes.                                |

**Information on toxicological effects**

|                 |                           |
|-----------------|---------------------------|
| <b>Symptoms</b> | No information available. |
|-----------------|---------------------------|

**Delayed and immediate effects as well as chronic effects from short and long-term exposure**

|                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Skin corrosion/irritation</b>         | Irritating to skin.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>Serious eye damage/eye irritation</b> | Irritating to eyes.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>Irritation</b>                        | May cause irritation.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Corrosivity</b>                       | No information available.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>Sensitization</b>                     | Repeated exposure may cause an allergic reaction to the skin.                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Germ cell mutagenicity</b>            | The active component is not considered to be mutagenic.                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>Carcinogenicity</b>                   | This product does not contain any carcinogens or potential carcinogens as listed by IARC.                                                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>Reproductive toxicity</b>             | Possible risk of harm to the unborn child.                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Chronic toxicity</b>                  | The toxicological effects of this product have not been thoroughly studied. Cannabidiol Toxicity Data: Intraperitoneal TDLO (rat): 5 mg/kg; Oral TDLO (rat): 5 mg/kg; Oral TDLo (human): 5.63 mg/kg; Intraperitoneal TDLO (mouse): 5 mg/kg. Investigated as a drug, mutagen, natural product, and reproductive effector. Only select Registry of Toxic Effects of Chemical Substances (RTECS) data is presented here. See actual entry in RTECS for complete information. Cannabidiol RTECS Number: VH1600000. |

The following values are calculated based on chapter 3.1 of the GHS document

### US Federal Regulations

#### SARA 313

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372

#### SARA 311/312 Hazard Categories

|                                   |    |
|-----------------------------------|----|
| Acute health hazard               | No |
| Chronic Health Hazard             | No |
| Fire hazard                       | No |
| Sudden release of pressure hazard | No |
| Reactive Hazard                   | No |

#### CWA (Clean Water Act)

This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42)

#### CERCLA

This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material

### US State Regulations

#### California Proposition 65

This product contains the following Proposition 65 chemicals

#### U.S. State Right-to-Know Regulations

#### U.S. EPA Label Information

EPA Pesticide Registration Number Not applicable
