

Auto Afghan

A hardy, classic Indica auto with robust structure and strong aroma of hash and spices. Finishes fast in 8 weeks with 450–500 g/m² yields. THC around 20% ensures a calming, body-heavy effect. Perfect for resin lovers and traditional hash making.

Auto AK47

is fast, powerful and reliable, delivering citrus-pine buds coated in crystal resin. Flowers in 8 weeks with 500–600 g/m² indoors. THC up to 24% produces energetic yet balanced effects. Easy to grow, ideal for both beginners and experts.

Auto Apple Fritter

is a high-performance autoflower offering exceptional aroma and potency. It fills the room with sweet notes of baked apples, vanilla and pastry dough. Plants grow strong and compact, flowering in about 9 weeks and producing up to 600 g/m² of dense, resin-heavy buds. With THC levels reaching 25%, the effects are powerful yet balanced, combining uplifting euphoria with deep physical calm.

Auto Banana Punch

Tropical and fruity, Auto Banana Punch develops thick, colorful buds rich in terpenes. Reaches THC levels around 25% and flowers in 8–9 weeks. Yields 500–550 g/m² indoors with vigorous growth. The aroma mixes ripe banana with candy and spice, offering relaxing, joyful effects.

Auto Biscotti

blends gourmet sweetness and high potency in a compact, easy-to-grow format. Expect thick, frosted buds that smell of cookies, cream and subtle spice. It completes its cycle in just 8–9 weeks, yielding around 550 g/m² indoors. With THC up to 26%, this strain delivers long-lasting relaxation and a premium smoke ideal for experienced users.

Auto Blue Cheese

merges classic Cheese intensity with fruity blueberry undertones. Compact plants finish flowering in just 9 weeks, producing dense, resinous buds with 20–22% THC. The smoke is creamy, rich and unmistakably savory-sweet. Perfect for those seeking deep relaxation and an old-school flavor profile.

Auto Blue Dream

A legendary strain made faster and easier, Auto Blue Dream delivers vibrant growth and aromatic results. Its fruity blueberry scent mixes beautifully with classic haze spice. Plants finish in around 9 weeks with yields up to 550 g/m² and THC between 22–24%. The high is creative, uplifting, and long-lasting — ideal for productive daytime sessions.

Auto Bubblegum

delivers the unmistakable sweet aroma of classic chewing gum with fruity undertones. Plants grow medium-sized with strong lateral branches and dense, sticky buds covered in crystal resin. Flowering completes in about 8 weeks, with indoor yields reaching 500–550 g/m². THC levels around 23% create a balanced, euphoric high perfect for relaxation or creativity.

Auto Cereal Milk

stands out for its creamy sweetness and sugary, dessert-like aroma. Compact yet productive, it matures in roughly 9 weeks and produces up to 600 g/m² of thick, frosted buds. The smoke is smooth and flavorful, blending vanilla, cream, and hints of fruit. With THC levels up to 25%, this strain delivers a cheerful, focused high ideal for daytime use.

Auto Cherry Pie

charms with its unique aroma of tart cherries, pastry, and spice. This fast-flowering hybrid finishes in 8 weeks, producing up to 500 g/m² of tight, resin-coated buds. THC levels hover around 23%, providing a smooth, happy, and relaxed effect. Its flavor profile and visual appeal make it a standout choice for connoisseurs.

Auto Cherry Punch

is a fruity, resinous powerhouse with cherry and grape aromas. It thrives in both indoor and outdoor setups, flowering in about 8–9 weeks. Expect 24% THC and yields around 550 g/m² of vibrant, colorful buds. The effects are uplifting and social, with a soothing physical finish that invites calm focus.

Auto Critical

is a grower's favorite thanks to its speed, stability, and heavy yields. It completes its cycle in just 8 weeks, producing up to 650 g/m² of thick, fragrant buds. With 22% THC, it offers a balanced and relaxing high that soothes the body without sedation. Its citrus-floral aroma and vigorous growth make it perfect for commercial harvests.

Auto DoSiDos

blends cookie sweetness and earthy depth in a compact autoflowering format. Maturing in about 9 weeks, it produces up to 550 g/m² of sticky, aromatic buds. THC levels reach 25%, delivering a long-lasting, soothing effect with creative undertones. Ideal for evening use and connoisseurs seeking potency and flavor.

Auto Gelato #33

delivers creamy dessert-like sweetness with vibrant trichomes and 25% THC. Compact plants finish in just 9 weeks producing 500–550 g/m². Aromas of vanilla, citrus and cookies blend perfectly with a smooth, euphoric high. Excellent balance between yield and top-shelf flavor.

Auto Gorilla Glue#4

A powerhouse autoflower famous for extreme resin and potency. Produces dense, sticky buds with earthy-diesel aroma and THC up to 26%. Indoors yields 500–600 g/m² in 8–9 weeks. Grows strong and compact with heavy side branches. Effects are deeply relaxing, ideal for evening use and extractions.

Auto Haze

offers the classic sativa experience with a faster, easier growing cycle. Expect tall plants with long, airy buds and citrus-spice aromas. Finishing in about 10 weeks, yields reach up to 500 g/m^2 with THC around 22%. The effects are uplifting and energetic, making it a great daytime choice.

Auto Jack Herer

Named after the legendary activist, Auto Jack Herer combines haze vigor with autoflower speed. It develops long, resin-covered colas with spicy, woody aromas. Flowering in 9 weeks, it yields up to 550 g/m² and delivers THC levels around 23%. The high is cerebral, clear, and inspiring — ideal for productive or creative moments.

Auto Lemon Haze

bursts with vibrant citrus aroma and sparkling resin production. Finishing in roughly 9 weeks, it produces up to 550 g/m² of fluffy, aromatic buds. THC content reaches 24%, delivering an energetic, euphoric high perfect for social activities. Its lemon zest flavor makes it a favorite among sativa lovers.

Auto Mexican

brings exotic sativa vigor in a quick, manageable autoflower format. It develops tall plants with open structure and lime-citrus aromas. Ready to harvest in about 9 weeks, with yields of up to 500 g/m² and THC around 21%. The effects are energetic, clear, and uplifting — great for creative or outdoor activities.

Auto Mintz

Fresh and invigorating, Auto Mintz combines minty freshness with the sweetness of cookies. It thrives quickly, maturing in about 9 weeks and producing 500–550 g/m² of glistening buds. THC levels reach up to 24%, providing a balanced and creative high. The aroma is refreshing and cool, making each session smooth and uplifting.

Auto Northern Lights

is a fast-flowering, highly resilient Indica ideal for all climates. It produces compact, resinous buds with sweet pine and spice aromas. Flowering takes just 8 weeks with yields around 550 g/m² and THC levels up to 22%. The effects are deeply calming and physical, perfect for stress relief and rest.

Auto OG Kush carries the iconic pine-diesel aroma and heavy-hitting power of its legendary lineage. Compact and robust, it flowers in 9 weeks with up to 550 g/m² yields. THC levels reach 25%, offering intense relaxation and euphoric calm. A must-have strain for fans of classic Californian genetics.

Auto Oreoz

combines dessert-grade flavor with raw potency, offering creamy, chocolate-cookie notes and dense trichome layers. Plants grow strong and compact, flowering in 9 weeks and producing around 550 g/m^2 . THC can reach up to 26%, resulting in a deeply relaxing yet mentally uplifting experience. Perfect for evening sessions or extraction enthusiasts.

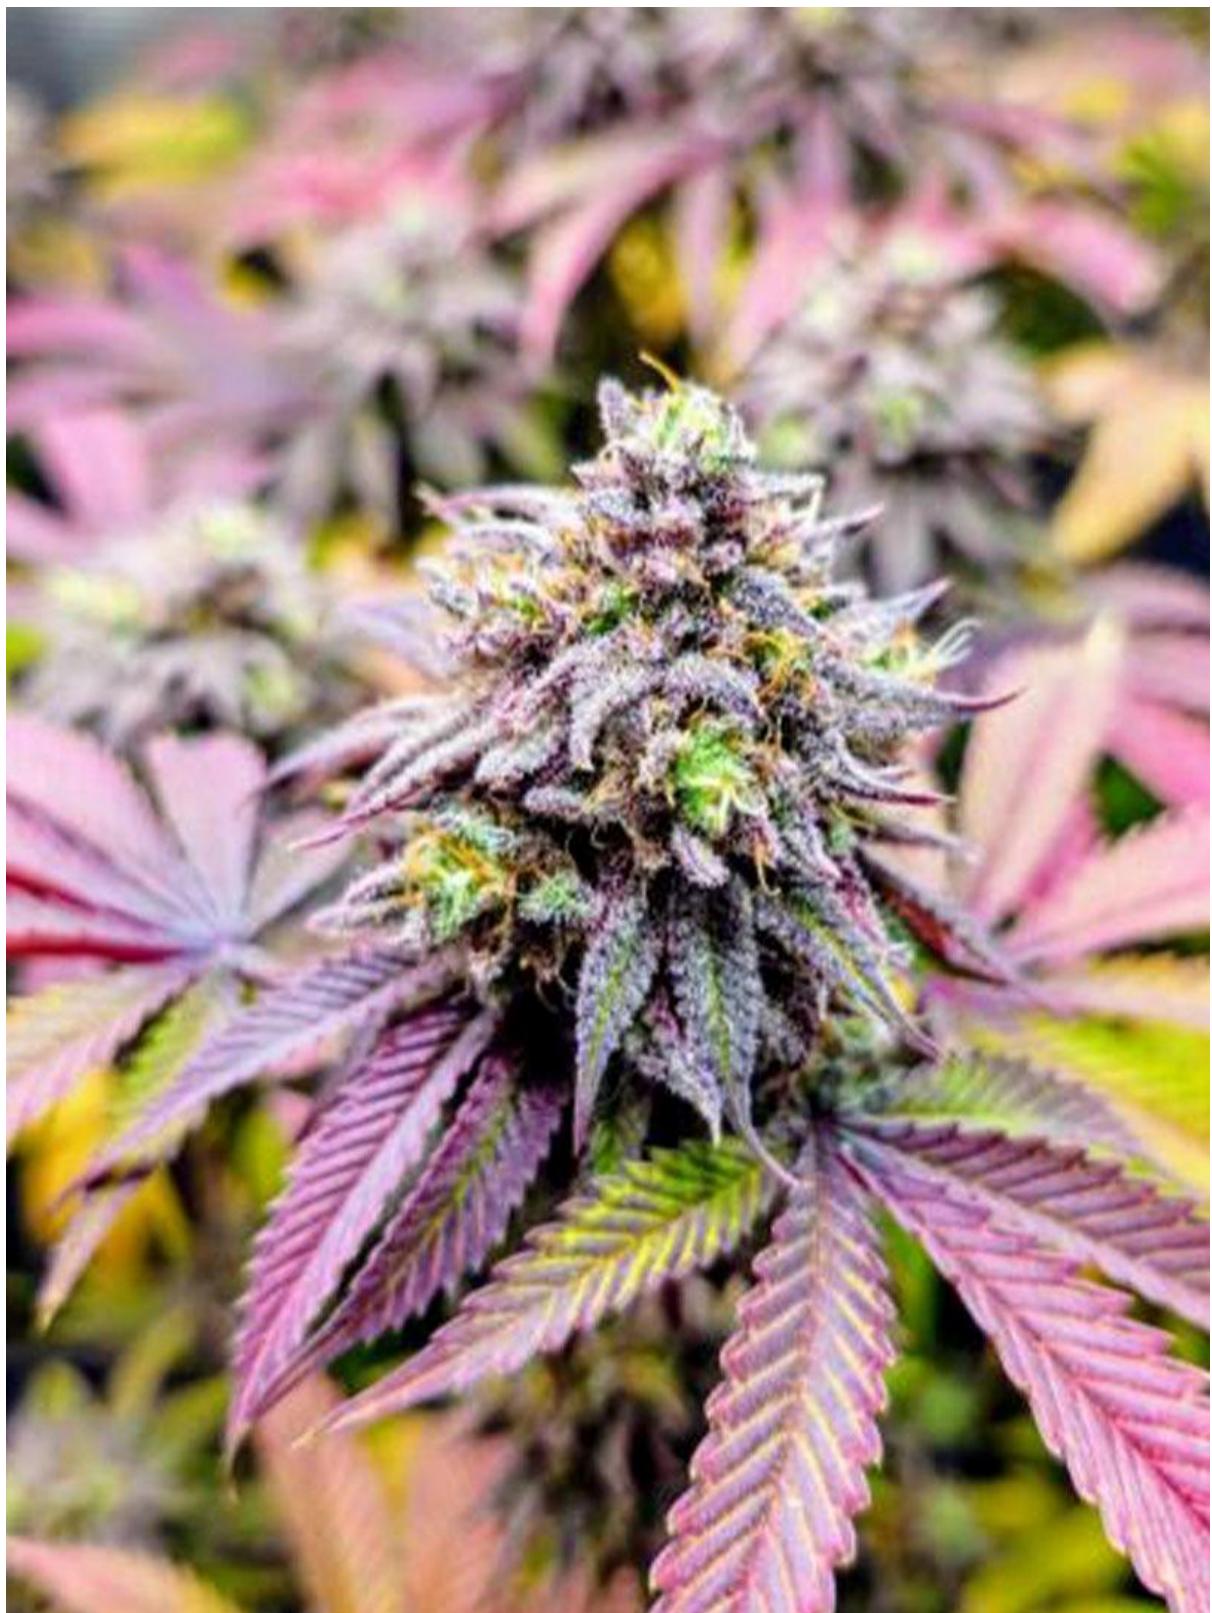

Auto Peanut Butter Breath

is known for its nutty, earthy aroma and dense, trichome-heavy buds. It completes flowering in about 9 weeks with yields around 550 g/m². THC can reach up to 26%, providing strong body relaxation and mental serenity. Perfect for those who enjoy rich flavor and powerful Indica effects.

Auto Purple Haze

blends vibrant purple tones with the classic haze aroma of fruit and spice. Ready in 9–10 weeks, it yields up to 500 g/m² and reaches THC levels near 23%. The effects are energizing, psychedelic, and long-lasting. Its colorful buds and sweet perfume make it a standout for collectors.

Auto Purple Kush

offers striking violet buds and a sweet, earthy scent with hints of berries. Finishing in 8–9 weeks, it produces up to 500 g/m² with THC around 24%. The smoke is smooth and deeply relaxing, melting stress and tension away. Ideal for nighttime enjoyment and visual appeal alike.

Auto Runtz

delivers rainbow-colored buds bursting with sweet candy and tropical fruit notes. It flowers in 9 weeks, offering generous yields up to 600 g/m² and THC levels around 25%. The high is euphoric and creative, followed by a gentle, soothing body relaxation. A visually stunning and delicious modern favorite.

Auto Strawberry Haze

enchants with its sweet strawberry aroma and uplifting sativa energy. Tall and vigorous, it produces large, resin-rich buds glowing with orange hairs. Flowering finishes in about 9 weeks, with indoor yields up to 550 g/m² and THC levels around 24%. The flavor blends fresh berries and subtle spice for a smooth, fruity smoke. Perfect for creative minds and daytime enjoyment.

Auto Wedding Cake

delivers dessert-level flavor and high resin output in record time. It flowers in 9 weeks, yielding up to 600 g/m² of dense, sugary buds. With THC around 25%, the effects are euphoric and soothing at once. Expect notes of vanilla, citrus, and spice in every rich puff.

Auto White Widow

maintains the legendary potency and crystal coating of the original strain. Finishing in 8–9 weeks, it produces up to 600 g/m² of sticky, aromatic buds. THC levels reach 23%, providing a balanced mix of mental clarity and physical calm. Renowned for its reliability, strength, and resin production
